Instructions:

- Open up Remote Desktop Connection
- Enter the Computer name (IP address above)
- Click the "Show Options" down arrow

- Enter the "User Name" above
- Click "Save as" to save the settings, save it to the Desktop for easy access.
- Click connect
- Then enter the password. Do not auto save the password. You want the user to have to enter the password every single time.

You are done.

Thanks,
